About Infoviaje

On-line travel guides 100% free.

Infoviaje is a small startup located in Barcelona. We are committed to find information and build websites to help travellers to prepare and organize their own trips.

We live to travel!

Yes, we love web design and we love to travel. We have combined those two passions to carry out this project that grows every day. We are so proud of our 20 websites which are increasingly reaching more travellers (4'2M last year) and the feedback we receive, that is very positive.

Therefore, we will keep on creating new content with passion, consistency and constancy.

What will you find?

Infoviaje guides provide travellers with useful information about destinations such as hotel recommendations, must see attractions, activities, restaurants, routes, itineraries, maps and more.
